How to improve site experience through IRT[1] and eCOA[2] integration?

[1]Interactive Response Technology
[2]electronic Clinical Outcome Assessment

Benefit from our open eCOA platform to optimize your clinical trial data flow

Why connect an IRT system with an eCOA platform?

Enjoy the performance of 2 expert solutions, with automated data transfer between both systems, for perfect clinical trial data flow.

Real-time connection between the 2 systems:

IMPROVES DATA QUALITY

- Avoids manual data entry errors
- Allows audit-trailed modifications to be incorporated into the eCOA solution

IMPROVES SITE EXPERIENCE

- Prevents data entry repetition
- Saves time and limits the investigator burden, simplifies the workflow

IRT pushes patient information automatically into the Clin'form eCOA platform

Automated feed of patient numbers

IRT system
Screening → inclusion → randomisation

→ REAL-TIME CONNECTION & DATA TRANSFER

Clin'form eCOA
Questionnaire completion

Multiple IRT systems already connected to Kayentis Clin'form

"Kayentis successfully managed multiple integrations between IRT systems and eCOA in clinical trials during 2021 for a Top3 Pharma. It was a necessity for the sponsor to ensure data flow quality throughout the clinical trial."

The Clin'form eCOA solution is ready for integration with any IRT system

Let's simplify the clinical trial experience!
