## **Kayentis**

Global provider of eCOA and patient-centric solutions

## Put an end to eCOA misconceptions #infography

kayentis · Saturday, July 4th, 2020

Discover below the 5 reasons to adopt eCOA solutions. Want to learn more about eCOA misconceptions? Click here!

## PUT AN END TO eCOA MISCONCEPTIONS

#### Regulatory bodies support eCOA data

Regulatory bodies have now made their stance clear toward eCOA solutions:

- They recommend the use of electronic solutions to collect clinical data endpoints
- The FDA has confirmed that the electronic capture of clinical source information is preferred to a paper-based system

# reasons to adopt eCOA solutions

## A successful transition to digital technologies

Not all sites and patients are equal when it comes to technology:

- Customized education and training solutions should be provided
- Patients and sites should be reassured and supported with adapted level of advice and clear documentation

## eCOA implementation: a valuable investment

eCOA use reduces the hidden costs compared to a paper-based system:

- eCOA implementation reduces the costs related to noncompliance, poor data quality, data management, site monitoring and study closure activities
- More sensitive results with eCOA, thanks to the reduction in error rate and the improvement of data quality

#### eCOA solutions ensure time savings

eCOA implementation can allow weeks to be saved:

- eCOA tools make data attributable, legible, contemporaneous, and accurate
- Robust project management of the trial start-up activities means that study timelines are met

#### eCOA optimizes data collection

eCOA ensures more data & better data integrity and accuracy compared to a paper-based system:

- Reduced risk of losing data thanks to data synchronization
- Efficient and appropriate eCOA back-up plan available
