

Kayentis

Dedicated to eCOA and patient engagement

#11 eCOA COMMITMENT: Kayentis has made its solutions fully and easily interoperable

kayentis · Tuesday, December 6th, 2016

Because it's better to use an eCOA solution that can operate with other devices, softwares and systems,

Our solutions are fully and easily interoperable:

- Our solution is CDISC ODM native.
- Easy integration of incoming data.
- Integration/connectivity with randomization, EDC, SAS via CDISC ODM, or any type of flat file.
