Dedicated to eCOA and patient engagement

eCOA Training: how can we improve the sites' and patients' experience? #whitepaper

kayentis · Tuesday, October 13th, 2020

Focused on eCOA training, this white paper transcribes the discussion from one in a series of 4 workshops about eCOA complexities held by Kayentis in 2020.

Clinical trials and eCOA experts from the pharmaceutical industry shared their experience and suggested best practice during a one-hour session that took place virtually.

This session was hosted by [Pascaline Richardot](#), Kayentis Portfolio Manager.

CONTENTS

- **Site Training**

How can we develop training opportunities to better support site personnel?

- **Patient Training**

Are patients sufficiently supported through the understanding of the purpose of ePRO completion and the value of the data that they provide?

- **Post-COVID Environment**

In the new normal of a post-COVID world, virtual interactions have taken over from face-to-face trainings.

How can we efficiently train sites & patients in a manner that keeps the engagement level the same?
