
With so much at stake, consider partnering with an eCOA and DCT expert!

Kayentis offers a unified platform featuring trustworthy services to ensure the success of electronic Clinical Outcome Assessment (eCOA) and decentralized clinical trials (DCT):

- 18+ years' eCOA experience navigating diverse clinical trial challenges
- A unified platform for decentralized clinical trials enhancing patient and site experience
 - Trusted partnership ensuring top-quality service delivery
 - Clinical and scientific experts empowering and supporting your teams
- Therapeutic expertise addressing the unique needs of specific populations

Emerging Biopharma & Biotech

5 key success factors for your clinical trials

With so much at stake, consider partnering with an eCOA and DCT expert

Kayentis offers a unified platform featuring trustworthy services to ensure the success of electronic Clinical Outcome Assessment (eCOA) and decentralized clinical trials (DCT)

18+ YEARS of eCOA EXPERIENCE

navigating diverse clinical trial challenges

- Adaptable eCOA technology to meet specific study requirements
- Flexible data collection modes and back-up solutions to collect data any time anywhere
- Easy-to-use solution for both patients and sites
- Capacity to manage complex protocols with complex study designs, wide patient age ranges, numerous questionnaires and multiple scores
- Strong collaboration with Language Validation Agencies to support global studies and expedite study start-up
- Global operational reach, with experience running studies in 90 countries (including China) and using over 120 languages

TRUSTED PARTNERSHIP

ensuring top-quality service delivery

- Dedicated project teams understanding your challenges and attentive to your needs
- Strong partnership spirit, collaborating with all study players from the very start of the project
- Proximity with EU- and US-based project teams and worldwide operational outreach

CLINICAL AND SCIENTIFIC EXPERTS

empowering and supporting your teams

- Support to develop the best eCOA strategy
- Ability to design any type of eDiary
- Thorough protocol review for adapted recommendations
- Clinically trained project managers, involved from study start to end
- Data management excellence

A UNIFIED PLATFORM FOR DECENTRALIZED CLINICAL TRIALS

enhancing patient and site experience

- A single point of access for the eCOA solution and other DCT components (eg. televisit, eConsent*)
- Patient engagement features: eg. Kayentis Media Player, Patient portal*, Patient transportation*, Medication adherence*
- Possibility to integrate with other clinical study systems for a streamlined user experience (eg. IRT, wearables)

*ClinOne partnership

THERAPEUTIC EXPERTISE

addressing the unique needs of specific populations

- Wide experience in many areas (eg. oncology, rare diseases, inflammation and immune disorders, women's health)
- Ability to work across various populations, including pediatric patients

95.6%
of our clients are likely to recommend Kayentis*

"Kayentis has a solution-oriented approach and a high level of expertise"

*2023 satisfaction survey
