

Because of the pandemic, have you felt...
...anxious for your/your family's health?
...worried for your job?
...isolated or lonely during lockdowns?
...uncertain about the future?

This is what patients living with chronic illnesses are feeling every day whilst fighting against the disease.

Let's listen to what patients have to tell us.
Let's take into account their needs in their battles.
Let's facilitate their journey as clinical trial participants.

**Discover all the patients' testimonials below or using
#EmpoweringPatientsVoices on LinkedIn!**
