5,000+ sites  
Expert network and specialized teams

## EXPERIENCE IN A BROAD RANGE OF THERAPEUTIC AREAS

## DEDICATED TO PATIENT ENGAGEMENT

“We work with our clients and partners to develop the most appropriate tools to support all stakeholders, patients, caregivers, investigator staff and client team.

This includes intuitive self-training, easy-to-use help menus, alerts, patient monitoring through role-based access and reporting, tools for sites to stay in touch with the subjects and for the subjects to access study details.”

## POWERFUL AND FLEXIBLE PORTAL TO MONITOR YOUR PROJECTS

**Clin'Form is our Clinical Data Portal that allows to monitor your study and clean your data**

- SaaS mode portal
- Instant scores / alerts (visible in the portal / sent via email)
- Full audit trail
- Query management
- Interoperable system, easily connects to any EDC / CDMS
- 21 CFR part 11 compliant

### Based on a robust and dedicated infrastructure

- Backup servers ensure total security and availability of our applications
- Hourly data backups ensure full protection of your data
- Disaster recovery plan in place

## ENABLES RISK-BASED MONITORING

“We provide automated and ad hoc dashboard that enable risk-based monitoring. They include weak signals based on our global experience of work with the sites; information comes from our Webportal, our PMs, our DM activity and our Support team. Altogether they give you a sharp view of what goes right or wrong at site, and allow us or you to put in place appropriate actions immediately.”

# GLOBAL SOLUTIONS FOR SUPERVISED AND UNSUPERVISED eCOA

## Tablet

- Intuitive self-training and help menus
- Can work offline and/or online
- Can support site PROs / ClinRos / ObsRos
