

eCOA is the foundation of decentralized clinical trials

Conducting eCOA trials goes hand-in-hand with facing challenges over the study design, the patient population, the therapeutic area... DCTs is a world of experts!

> eCOA is at the core of our expertise

- A solution originally created for eCOA and based on an innovative and scalable technology
- The most flexible data entry possible: Provisioned Devices, WebCOA, BYOD, and remote interview modes
- From start to end, benefit from our support as you need it, when you need it: set-up, translations, logistics, data management etc.
- Ability to support the most complex trial designs: eg, variable scheduling, multiple triggers, instant score calculation, multi branching logic

> +16 years worldwide eCOA experience

- In most therapeutic areas
- 90% in late phase (IIb, III)
- Optimized set-up phase via questionnaire library

> We are a key player in the eCOA ecosystem

- Active member of eCOAConsortium
