

Plan a successful web back-up strategy for your eCOA clinical trials

Have you anticipated all situations?

The patient cannot come to the site

Access to the site is limited because of a pandemic

The nurse must postpone the visit

The site has too many patients scheduled on the same day

The patient's tablet is broken

The patient is on holiday and has forgotten their device

On site, the device has run out of battery

The caregiver needs a larger screen to read the questionnaire

Kayentis WebCOA
