How to improve site experience through IRT[1] and eCOA[2] integration?

[1]Interactive Response Technology
[2]electronic Clinical Outcome Assessment

BENEFIT FROM KAYENTIS OPEN eCOA PLATFORM TO OPTIMIZE YOUR CLINICAL TRIAL DATA FLOW

Why connect an IRT system with an eCOA platform?

Enjoy the performance of 2 expert solutions, with automated data transfer between both systems, for perfect clinical trial data flow

IRT PUSHES PATIENT INFORMATION AUTOMATICALLY INTO THE CLIN'FORM ECOA PLATFORM

IRT system
Screening → inclusion randomisation

← **Automated feed of patients' data** →

Clin'form eCOA
Questionnaire completion
Score calculation

Real-time connection & Data transfer

Improves data quality
- Avoids manual data entry errors
- Allows audit-trailed modifications to be incorporated into the eCOA solution

Improves site experience
- Prevents data entry repetition
- Saves time and limits the investigator burden, simplifies the workflow

The Clin'form eCOA solution is ready for integration with any IRT system

Let's simplify the clinical trial experience!
