

# Engage patients throughout the clinical trial journey

Boost retention and drive compliance with patient engagement modules seamlessly integrated into our Clin'form eCOA app

**Partnerships with patient advocates and site experts** worldwide across therapeutic areas

**Large-scale patient and site surveys** conducted across the globe to evaluate clinical trial experiences and preferences

**Collaborative development of supportive materials** with patient experts and advocates for patient engagement

**Focus groups**, patient usability testing, and interviews with patients and site staff

**BETTER EXPERIENCE  
HIGHER RETENTION  
STRONGER COMPLIANCE**

**Choose Kayentis**, empowering patient engagement through eCOA for better study outcomes

- **Address patient preferences and routines** with our multiple collection modes including our BYOD solution, televisit option, customizable reminders, and motivational messages.
- **Measure patient experience of a clinical study** with our Participant Feedback Questionnaire, together with other questionnaires.
- **Easily provide user guides and educational material** through our embedded media player to train and empower study participants.
- **Ensure your patients are informed and remain engaged** throughout the study with our video library of educational content.

**Ask for a demo**
